THE BIRTH OF A NATION

David W. Griffith's epoch-making spectacle, "The Birth of a Nation," a United Artists release, following its record-breaking return to New York, will be seen in one of its original productions at The Elba Theatre next Wednesday and Thursday, Nov. 17, and 18th.
This work from the nature of the new art it established has excited keener curiosity than any other offering of a decade and after being away for several years it was recently presented for a special engagement at the enormous Capitol Theatre and played to over 150,000 people in two weeks.
"The Birth of a Nation" tells by film and music the story of a nation re-born through the storm and stress of intestine strife. Instead of the four to six scenes of the conventional plays, its technique permits of filming literally thousands of scenes and covering a wide range of history and characters. Slavery, the primal cause of the War; Lincoln's call for troops to subdue the Southern States; the battle on the eve of Bull Run, and the first triumph of Confederate arms; the devastation wrought by Sherman's march and the awful ordeal of the Siege of Petersburg. Lee's surrender to Grant at Appomattox; the assassination of the Great President; the harsh radical policy toward the stricken South; the uprising of the Ku Klux Klan and the overthrow of the carpet-bagger regime—these great factors and events pass in review before the thrilled spectator.
The love interest of the play is based on the friendships between the Carolina and the Stonemans of Pennsylvania, two families involved in the struggle. Ben Cameron, the gallant champion of the Dixie stories, appears again in the role of romantic hero; the piquant North Carolina, as the heroine.

bers into the church and raised approximately \$25, (24.82) for Kingdom purposes. The new church at Pleasant Ridge was built and paid for during his pastorate. It has been painted inside and out and provided with a piano. Wesley Chapel another church on the circuit, has been repainted and recovered and a new piano placed in it. At Tabernacle, still another church on the circuit, a new roof has been added, the church has been painted and an organ placed in it. At New Brockton the climax of Brother Moore's efforts has been reached in the building of a fine new church here. It is provided with Sunday School equipment, social halls, and a fine auditorium. A new piano has been put in this church. The church is valued at \$20,000 and New Brockton but there are places where it would have cost \$30,000 to build this church. The membership of our church at New Brockton is 146 and 88 of these were received into the church by Brother Moore. The Advocate goes into practically every house there.
On Sunday of last week the editor of the Advocate had the privilege of preaching three times on Bro. Moore's charge, twice at New Brockton and once at Bethel. He was strongly impressed with the fine work that Brother Moore was doing. —Alabama Christian Advocate.

ROAD CONTRACTS TOTAL \$170,000; TWO CONTRACTS IN COFFEE

Montgomery, Nov. 19.—Contracts for three road projects totalling over \$170,000 were awarded Wednesday by the highway commission. On a 4th project paving approaches to the Chattahoochee river bridge at Eufaula, the commission recommended of Col. W. A. McCalla, chief engineer, rejected all bids and voted to do the work with a state force.

Contract for 12.06 miles of sand clay road in Coffee county between Elba and Opp went to the Giles Construction Co. of Brewton, at \$64,285.46. For another Coffee county project 8.85 miles of sand clay road between Enterprise and Ozark, contract went to J. E. Newberry and Company, of Dalton, at \$47,100. Bids were also received for road work on the eastern terminus of the bridge across Mobile Bay and Bay Minette, contract was awarded to Collins and Hicks of the Giles Construction Co. Bids were also received for topsoil surfacing of this project, but the commission by a two to one vote decided not to award the contract, on the ground that Baldwin county would be getting too much over its quota of state road funds. Baldwin county was still due approximately \$32,000, it was stated, and cost of grading the project was over \$45,000, while with surfacing added cost would approximate \$56,000. Chairman Rogers moved to award contract for surfacing as well as grading, but was voted down. Associate Commissioner Smith and Boyd voting no to the proposition. The commission then awarded the contract for grading and drainage only.

Thanksgiving

PSALM 100.

Thanksgiving Day is set apart by our President and our Governor as a day of praise to God for His goodness and mercy. Indeed, He has been good to us and to all men. He has preserved us as the "sheep of His pasture." He has bestowed material and spiritual blessings for which we should be profoundly grateful. On this annual return of a day of thanksgiving, our hearts should be attuned to a spirit of praise as expressed in the 100th Psalm:

"Make a joyful noise unto the Lord, all ye lands. Serve the Lord with gladness: come before his presence with singing."

Know ye that the Lord he is God: it is he that hath made us, and not we ourselves; we are his people, and the sheep of his pasture.

Enter into his gates with thanksgiving, and into his courts with praise: be thankful unto him, and bless his name. For the Lord he is good; his mercy is everlasting; and his truth endureth to all generations."

So long as America sings this psalm of praise, in spirit and understanding, we shall not fear, but shall be a happy and contented people.

Sincerely yours,

J. A. CARNLEY, Judge of Probate.

Elba people will be glad to know that we now have a well fitted out dairy in full operation. Mr. O. C. Smith is manager of the new enterprise, and while starting out on a small scale, is highly pleased with the splendid results he is having. To begin with he had demand for all the milk that he had, but says that he is arranging to increase his herd of Jersey cows. At present the dairy plant is located at the Ben Lee place, two miles from town, but about a mile from the Elba road. It is still under treatment at the Ben Lee place. His condition is not considered dangerous, unless some unexpected complications arise. Messrs. Y. W. Rainer and O. C. Smith are making this new venture a success. Fresh milk is delivered every morning, and additional arrangements have been made with local dairy stores to keep their milk on hand for sale. It is a good thing for the community, and it is hoped that they will have a successful business. Officer Davis was seriously and painfully injured. He received several volleys of "bird shot" from a shotgun. Davis, taking effect in his forehead, shoulders, breast and both legs. He is still under treatment at the hospital.

COTTON SEED MEAL FOR FERTILIZER.

Auburn, Ala., Nov. 23.—The current low prices for cottonseed meal as compared with nitrate of soda prices about the same as when cotton and cottonseed meal were much higher have presented a fertilizer situation which is expected by Prof. M. J. Funchess, dean and director of the Agricultural Experiment Station here, to cause farmers to use more cottonseed meal as a fertilizer for cotton next year.

To determine which to use, Prof. Funchess made a careful study of the results of 202 experiments conducted over a period of 12 years with farmers on all soil divisions of Alabama. He found that a ton of nitrate of soda (18 per cent ammonia) produced 2.4 times as much cotton as a ton of cottonseed meal of 7.5 per cent ammonia produced. This is the average for Alabama.

In practical terms this means that when the price of nitrate of soda is 2.4 times that of cottonseed meal they are a 50-50 proposition as a cotton fertilizer. At present, however, cottonseed meal can be bought for around \$20 a ton and 2.4 times \$20 equals \$48, which is several dollars under the prevailing prices for nitrate of soda. Therefore, if present prices of the two products are the same when it comes to buy fertilizer, Prof. Funchess would advise farmers to buy cottonseed meal. At prevailing prices meal is more economical, and at the same time, cottonseed meal is a cotton-farmer product and by using it for fertilizer farmers are increasing the demand for their own product.

Prof. Funchess said that this figure is for the State as a whole, and that it is not absolutely true for all soil divisions. For this reason he advises farmers to consult their county agents for information about the results on their particular soils.

CHEVROLET

for Economical Transportation

Good taste and good health demand sound teeth and sweet breath.

The use of Wrigley's chewing gum after every meal takes care of this important item of personal hygiene in a delightful, refreshing way — by clearing the teeth of food particles and by helping the digestion.

The result is a sweet breath that shows care for one's self and consideration for others — both marks of refinement.
